[transfer authorization and generation of electronic title configured to define ownership and facilitate passage of said selected products and payments of international taxes and duties.] ; and,

(g) upon confirmation of availability of said funds, generating an electronic title for said selected product wherein said electronic title is configured to define ownership, and to facilitate passage of said selected product to said destination.

2. The process of claim 1, wherein prior to said step (a) of [selecting] determining a language, carrying out a preliminary step of [:]

92

[(i)] verifying [customer] information for [an individual] a customer accessing a computer system for carrying out said process via [internet] the Internet.

3. The process of claim 2, wherein said preliminary step of verifying customer information comprises the substeps of [:]

[(i)] [automatically selecting] determining currency based upon customer information; and,

[(ii)] determining an exchange rate based upon a currency [of] designated for said customer [country] and a predetermined exchange medium.

4. The process of claim 3, wherein said step (c) of selecting [products] at least one product comprises the substeps of [:]

[(i)] distinguishing between foreign and domestic transactions.

5. The process of claim 4, wherein said step (c) of selecting [products] at least one product further [comprise] comprises the substep of [:]

[(ii)] [calculating] determining shipping routes and calculating shipping and associated costs for selection by said customer.

6. The process of claim 5, wherein said step (c) of selecting [products comprise] at least one product comprises the further substep of [:]

[(iii)] calculating taxes, import duties, export duties and [all] shipping and associated costs based upon selected shipping routes.

7. The process of claim 6, wherein said step [(d)] (f) of ordering said selected products [comprise] comprises the substep of :

[(i)] carrying out transactions to arrange for shipment of products selected by customer along a selected shipping route.

8. The process of claim 7, further comprising the step of :

[(e)] (h) correlating movement of said electronic title with movement of selected products along said selected shipping route.

9. The process of claim 8, further comprising the step of :

[(f)] (i) generating documents from said electronic title when appropriate along said selected shipping route.

10. The process of claim 9, wherein said step [(f)] (i) of generating documents [comprise] comprises the substep of :

[(i)] authorizing electronic payment of all expenses required along said selected shipping route.

11. The process of claim 10, further comprising the step of :

[(g)] (j) storing and analyzing data based upon each said customer accessing said system to develop a purchasing profile for each said customer.

902
12. The process of claim 11, wherein said customer purchasing profile is used to select candidate products to be presented to said customer upon subsequent accessing of said system before selection of products [for purchase] by said customer.

Final
13. A system for carrying out all requirements for a complete international transaction [between computers operating] using computer-to-computer operation over an EMF link, at least one of said computers being programmed to comprise :

903
(a) means for accessing a plurality of databases, said databases being related to each other by at least one transaction;

✓ (b) means for confirming existence of available funds for said transaction;

✓ [(b)] (c) means for generating an electronic title upon confirmation of availability of said funds, said electronic title configured to define ownership and facilitate passage of goods subject to said transaction [and payment of international taxes and duties];

[(c)] (d) means for routing said electronic title in correspondence to [along] a [transportation] shipping route of said goods involved in said transaction.

14. The system of claim 13, further comprising :

[(d)] (e) means for transferring funds to pay [all] taxes, duties, handling costs and [transfer] shipping and associated costs of said goods subject to said transaction.

EH
15. The system of claim 14, wherein said plurality of databases comprise information on customer data, financial data, goods available for transaction, routing information for goods subject to transaction costs for [transferring] shipping goods, costs for handling goods at transfer points, and costs of duties[,] and taxes.

16. The system of claim 15, further comprising means for converting currencies for purposes of carrying out transactions between [consumers] customers and vendors in different countries.

17. The system of claim 16, further comprising :

[(a)] (f) means for generating a database of customer purchasing histories and customer financial data; and,

[(b)] (g) means for reviewing said customer purchasing history database

84
before initiating transactions.
